DeVry University Employment Outcome Disclosures

As of 6/1/2023

The information below describes the placement rates and other employment outcomes that DeVry University has calculated or reported in the last 12 months to fulfill state or accreditor requirements, including the methodology, timeframes and sources of information associated with the figures. Please note that the relevant definitions, methodologies and timeframes vary by state/accreditor.

Table of Contents

Employment Outcomes Reported to Accreditors

Commission on Accreditation for Health Informatics and Information Management (CAHIIM):

DeVry University is required to report employment data to CAHIIM. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to CAHIIM in February 2023. CAHIIM required only summary data for graduates. A placement rate was not reported. Data was reported for all students who graduated between 7/1/2021 and 6/30/2022. In field and out of field employment includes new employment obtained within a year after graduation. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Location	Program	Number of Graduates	Number of Graduates Employed within One Year	Number of Graduates with New in-Field Employment	Number of Graduates with New Out of Field Employment	Number of Graduates with Existing Employment₁	Number of Graduates Pursuing Further Education
IL Online	Associate in Health Information Technology	48	8	8	0	n/a	4
IL Online	Bachelor in Technical Management - Health Information Management	60	6	6	0	n/a	2

1: "Number of Graduations Employed In-Field and out of field" was defined as New Employment. Existing In-Field Employment was not counted and is shown as not applicable.

6/1/2023

Employment Outcomes Reported to States

California Bureau for Private Postsecondary Education (BPPE)

DeVry University is required to report employment data to BPPE. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to BPPE in November 2022. The placement rate was calculated according to the methodology prescribed by BPPE. Employment data was based on information available to DeVry University as of November 2022. The denominator of the rate was defined as all students who began a program who were scheduled to complete the program within 100% of the published program length in calendar year 2021 and graduated within 100%, except those who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution. The employment rate was calculated by dividing the numerator by the denominator. The numerator includes graduates who beginning within six months after a student completes the applicable educational program are gainfully employed in a job classification under the United States Department of Labor's Standard Occupational Classification codes, using the Detailed Occupation (six-digit) level, for which the institution has identified in its catalog, whose employment has been reported, and for whom the institution has documented verification of employment, or the graduate is employed by the same employer that employed the graduate before enrollment, and any of the following conditions are met: (i) the graduate is employed in an occupation with a different Detailed Occupation (six-digit) level Standard Occupational Classification code than applies to the position in which the graduate was employed before enrollment; or (ii) the employer or the graduate provides a statement to the effect that the employment after graduation was the result of a promotion with increased pay, due at least in part to graduation from the program; or (iii) the employer or the graduate provides a statement to the effect that the degree or the completed program was required as a condition of continued employment; or (C) The graduate is self-employed or working freelance as reasonably evidenced by, but not limited to, a business license, fictitious business name statement, advertising (other than business cards), website, or business receipts or other evidence of income from business; or an attestation signed by the graduate of self-employment or freelance work and dated after graduation.

Georgia Nonpublic Postsecondary Education Commission (GNPEC)

DeVry University is required by GNPEC to disclose employment data. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were calculated in December 2022. GNPEC did not define a placement rate methodology so DeVry University's methodology was used. The denominator of the rate was defined as all students who graduated between 7/1/2021 and 6/30/2022, except those who entered another post-secondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who were employed in an occupation for which they were trained by the program by December 20th, 2022. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Missouri Coordinating Board for Higher Education (CBHE)

DeVry University is required to report summary employment outcome data to CBHE separately for Missouri residents attending Online and students at the Kansas City Campus. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE FOR SUMMARY DATA

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS FOR SUMMARY DATA

CBHE required summary data for students who graduated between 1/1/2022 and 12/31/2022. CBHE did not define a placement rate methodology so DeVry University's methodology was used. The denominator of the rate was defined as all students who graduated between 1/1/2022 and 12/31/2022, except those who entered another post-secondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who were employed in an occupation for which they were trained by the program by December 1, 2022 or at any time prior to graduating. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

The outcomes for Missouri residents attending Online below were reported to CBHE in January 2023. CBHE required summary data for students who graduated between 1/1/2022 and 12/31/2022. CBHE did not define a placement rate methodology so DeVry University's methodology was used. "N/A" is used to indicate fields that were not included in reported data.

DeVry University's Kansas City, Missouri location closed on June 30, 2022. In July 2022, in accordance with CBHE closure requirements, DeVry reported employment of students who graduated between January 1, 2021 and December 31, 2021.

Nevada Commission on Postsecondary Education (NCPE)

DeVry University is required to report employment data to NCPE. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to NCPE in February 2023. NCPE required only summary data for graduates. A placement rate was not reported. Data was reported for all students who graduated between 1/1/2022 and 12/31/2022. Reported employment totals include all graduates who obtained in-field employment and graduates who obtained new in-field employment no earlier than six months prior to graduation. Employment data was based on the information available to DeVry University as of February 2023. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

North Carolina Board of Governors (NCBOG)

DeVry University is required to report employment data to NCBOG. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to NCBOG in November 2022. NCBOG did not define a placement rate methodology so DeVry University's methodology was used. The denominator of the rate was defined as all students who graduated between 9/1/2020 and 8/31/2021, except those who entered another post-secondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who were employed in an occupation for which they were trained by the program by December 1, 2021 or at any time prior to graduating. The employment rate was calculated by dividing the numerator by the denominator.

Oregon Higher Education Coordinating Commission- Office of Degree Authorization (OR HECC)

DeVry University is required to report employment data to OR HECC. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to OR HECC in November 2022. OR HECC did not define a placement rate methodology so DeVry University's methodology was used. The denominator of the rate was defined as all students who graduated between 7/1/2021 and 6/30/2022, except those who entered another post-secondary education program or the military full-time, were incarcerated, or died. The numerator of the rate was defined as all students in the denominator who were employed in an occupation for which they were trained by the program by November 1, 2022. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Tennessee Higher Education Commission (THEC)

DeVry University is required to report employment data to THEC. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

THEC required DeVry University to report student-level employment outcome data in September 2022 for Tennessee residents at DeVry University's Online location. The reported student-level data was aggregated by location, program, and concentration (as licensed by THEC) then summarized in the Employment Outcome Data table below. The graduate outcome status was determined according to the methodology prescribed by THEC. The employment outcome status as of September 2022 was reported for all students who graduated between 7/1/2021 and 6/30/2022. Graduates who obtained in-field employment at the time of submission or any time prior to graduation are reported as employed. Additional outcome statuses are reported to THEC for those who enter another post-secondary education program or the military full-time, have a health related situation, family emergency, are deceased or incarcerated, have their job relocated, are pending fulfillment of licensure requirements, international and unable to work by law, or refused employment. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

THEC required DeVry University to report student-level employment outcome data for DeVry University's Nashville campus in June 2022. The reported student-level data was aggregated by location, program, and concentration (as licensed by THEC) then summarized in the Employment Outcome Data table below. The graduate outcome status was determined according to the methodology prescribed by THEC. The employment outcome status as of June 2022 was reported for all students who graduated between 7/1/2021 and 6/30/2022. Graduates who obtained in-field employment at the time of submission or any time prior to graduation are reported as employed. Additional outcome statuses are reported to THEC for those who enter another post-secondary education program or the military full-time, have a health related situation, family emergency, are deceased or incarcerated, have their job relocated, are pending fulfillment of licensure requirements, international and unable to work by law, or refused employment. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

West Virginia Council for Community and Technical College Education (WVCCTCE)

DeVry University is required to report employment data to WVCCTCE. DeVry University does not guarantee employment. Readers should not make assumptions about their own likelihood of employment based on this data.

DATA SOURCE

Attempts were made to obtain employment status information for all graduates. The collected data includes, but is not limited to, the intent to work in a field-related position and, for those who are so employed, the graduate's start date, title, employer name, duties, hours worked per week, and earnings. Information was gathered through a variety of means. Generally, the information was gathered from forms graduates completed. Data may also have been collected through in-person, telephone, or email interviews with graduates or from third-party sources. DeVry University neither verifies nor guarantees the accuracy of information gathered.

TIMEFRAMES, DEFINITIONS, AND CALCULATIONS

The outcomes below were reported to WVCCTCE in September 2022. The placement rate was calculated according to the methodology prescribed by WVCCTCE. The denominator of the rate was defined as all West Virginia residents who graduated from DeVry University's Online location with an associate degree or undergraduate certificate between 7/1/2021 and 6/30/2022. The numerator of rate one was defined as all students in the denominator who obtained employment within three months after graduation or any time prior to graduation. The numerator of rate two was defined as all students in the denominator who obtained in-field employment within three months after graduation or any time prior to graduation. The employment rate was calculated by dividing the numerator by the denominator. "New Employment" is defined as employment obtained no earlier than 6 months prior to graduation. "Existing employment" is defined as employment that existed at time of enrollment or was obtained more than 6 months prior to graduation.

EMPLOYMENT OUTCOME DATA

Location	Program	Total Graduates	Number of Graduates With Existing Employment	Number of Graduates with New Employment	Number of Graduates with Unknown Employment Outcome	What percent of West Virginia graduates find employment within three months of graduating?
