

Iowa Professional Licensure Disclosure | Certified Public Accountant (CPA)

Overview

DeVry University and its Keller Graduate School of Management are committed to providing students with accurate information to help students make informed decisions about their education.

The educational and non-educational prerequisites for Certified Public Accountant (CPA) licensure can vary significantly from state to state and U.S. territory. These variations encompass the number of accounting and business course hours, experience, exam success, background checks¹, and ethical compliance. Understanding these differences is key to determining a student's eligibility to sit for the Uniform CPA exam and apply for licensure in different jurisdictions. The U.S. Department of Veterans Affairs regulations mandate institutions to transparently disclose any additional non-educational requirements necessary to obtain the license or certification for which the program of education is designed to provide preparation.

¹Results of a background check may disqualify an individual from obtaining licensure. As such, it is your responsibility to determine if your circumstances pose any barriers.

Education Requirements

For CPA licensure, candidates must obtain at least 150 semester hours (225 quarter hours) of education with one of the following educational requirements:

1. Earn a graduate degree with a major in accounting from an accredited institution recognized by the Iowa Accountancy Examining Board.
2. Earn a graduate degree in business from an institution recognized by the state board, consisting of at least 24 semester hours in accounting.
 - a. Required accounting courses include financial accounting, auditing, taxation, and management accounting above the elementary level.
3. Earn a bachelor's degree in business or accounting from an institution recognized by the board with at least 24 semester hours in accounting.

- a. Required accounting courses include financial accounting, auditing, taxation, and management accounting above the elementary level.
4. Earn a bachelor's degree or higher degree from an institution recognized by the board with at least 24 semester hours each in accounting and business-related courses.
 - a. Required accounting courses include financial accounting, auditing, taxation, and management accounting above the elementary level.
 - b. Elementary accounting hours that do not fulfill the accounting requirement may apply toward the business-related course requirement.

Experience Requirements

Iowa CPA candidates must gain one year of experience (2,000 hours), either full-time or part-time, spanning no more than three years. Experience may be gained via one or more employment opportunities providing any type of service or advice using accounting, attest (CPA), management advisory, compilation, tax, financial advisory, or consulting skills. The experience must be verified by a licensed CPA, and can be gained in government, academia, industry, or public practice. Exceptions include the following:

- If the experience is academic, you must teach a minimum of 24 semester hours of accounting courses in higher education. To qualify, students must receive credit on an official transcript.
- To qualify as an attest CPA, you must gain a total of two years (4,000 hours) of experience, 2,000 hours of which must be providing attest services under a qualified CPA.

Ethics Requirements

Iowa requires its CPA candidates complete the AICPA ethics exam and pass with a 90% or higher.

Other Requirements

- Pass all four sections of the CPA Exam with a score of 75 or higher within an 18-month period.
- Be of good moral character.
- Be a minimum of 18 years old.
- Iowa CPA requirements mandate candidates to produce their Social Security number to obtain a CPA license in the state.

DVU Licensure Programs

The following DVU programs meet the educational requirements for CPA licensure in the state of Iowa:

- Master of Science in Accounting - Certified Public Accountant (CPA) Exam Preparation Emphasis
- Master of Accounting and Financial Management – Certified Public Accountant (CPA) Exam Preparation Emphasis

It is important to note that these determinations apply to individuals holding a bachelor's degree in accounting or a business degree with a focus on accounting or finance. DeVry's bachelor's degrees in accounting and business were used as a baseline for these determinations, and checking with your state board of accountancy is recommended to ensure that all specific educational requirements for licensure are satisfied.

CPA Review Courses

Credits obtained from CPA exam review courses cannot be used to fulfill the mandatory concentration in accounting coursework in the following states: FL, KS, NJ, NY, TX, and VT.

Accreditation

DeVry University is accredited by The Higher Learning Commission (HLC), www.hlcommission.org. The University's Keller Graduate School of Management is included in this accreditation.

Our Accounting Degrees are accredited by the Accreditation Council for Business Schools and Programs (ACBSP) www.acbsp.org. Please refer to the [academic catalog](#) for details.

Student Relocation

Students who intend to relocate should notify the DeVry University of their location change and review the professional licensure requirements of that state's professional licensing board. Visit the [National Association of State Boards of Accountancy](#) to find the contact information, as well as a listing of statutes for the State Board of Accountancy in each of the 55 jurisdictions. For additional information about student relocation, please refer to the student relocation notice within the [academic catalog](#).

Other Accounting Related Programs

The programs listed below are not specifically designed to prepare students for licensure. However, they offer valuable knowledge and resources that can provide a foundation in accounting and business concepts as well as practical skills.

The undergraduate programs are classified as pre-licensure programs. For example, every state and territory require a minimum of 150 semester credits of specific coursework for CPA licensure eligibility. Generally, undergraduate programs do not provide enough credits to meet this requirement. Nevertheless, students can leverage the credits earned in these undergraduate programs toward the licensure requirements.

The Graduate Certificate in Accounting Certification Preparation program, with a Certified Public Accountant Exam Preparation option is designed to help students prepare to sit for the CPA exam by offering practical resources and focused exam preparation. Additionally, the program may offer a few extra credits in certain states to help students qualify for CPA licensure.

The remaining programs provide advanced knowledge and skills in accounting and finance to equip students for various non-licensure accounting and finance roles, such as financial analyst, management accountant, internal auditor, budget analyst, and financial manager.
