

HEALTH INFORMATION TECHNOLOGY

Specialization: Analytics

ABOUT THIS PROGRAM

DIGITAL HEALTH CORE

DIGITAL HEALTH CORE

DeVry University's Digital Health Core courses are designed to help students develop a set of interdisciplinary skills for today's rapidly evolving health information field. Courses explore principles used throughout the healthcare ecosystem. Students will develop hands-on experience working with industry-standard software systems and simulated patient records.

A PROGRAM TO FUEL YOUR FUTURE

Data is the driving force behind all healthcare initiatives, as the digital landscape continues to grow. Data analytics can be used to conduct medical research, improve health outcomes, gain operational insights, and even predict healthcare/patient trends.

IS THIS PROGRAM FOR YOU?

Are you an analytical thinker interested in applying your problem-solving skills in a healthcare setting? DeVry's Associate Degree in Health Information Technology with a specialization in Analytics is designed to prepare students with the knowledge and skills needed to pursue entry-level healthcare analyst roles where you will extract, interpret and report data to help healthcare leaders make data-driven decisions about operations and patient care.

CAREER OPPORTUNITIES

Graduates of DeVry University's Associate Degree in Health Information Technology program with a specialization in Analytics may careers including, but not limited to, the following:

- Clinical Data Analyst
- Data Analyst
- Healthcare Data Analyst
- Healthcare Information Management Analyst
- Health Information Technologists and Medical Registrars
